

RENEWABLES

In keeping with India’s clean energy goals, we are expanding our renewable energy portfolio to support the nation’s transition towards a low-carbon economy. Through the adoption of advanced technologies and a commitment to sustainability, we are delivering reliable, socially responsible energy solutions as an integrated energy company of the future. We have outlined a clear roadmap to build 10 GW of renewable energy by 2035, reinforcing our long-term decarbonization strategy.

Key Highlights

5 MW Green Hydrogen Plant Commissioned at Bina Refinery	154.86 MW Total Renewable Installed Capacity	171 MW Under-construction Renewable Capacity

DRIVING ENERGY TRANSITION

At Bharat Petroleum, renewables are not an add-on – they are central to our transformation. From harnessing solar and wind energy to pioneering green hydrogen and biofuels, we’re building a diversified and future-ready clean energy portfolio.

With investments that span infrastructure, innovation, and integration, we are accelerating India’s transition to a low-carbon economy.

Accelerating the Shift. Shaping the Future of Energy.
